## BIGGEST IN HISTORY.

RECEPTION TO DEWEY WILL BE WITHOUT PARALLEL.

The Welcome to Be Accorded the Hero of Manila Bay Will Be the Greatest Ever Extended to Any Man by This Nation.

New York has been the scene of many notable demonstrations, but they will all pale into insignificance when compared with the coming celebration in honor of the return of Admiral Dewey from his victorious conquest in the far East. The welcome to be accorded the hero of Manila bay will be the greatest ever extended to any man in the history of this country. The great triumphal homecomings of the Roman conquerors will be as nothing compared to the reception to be given this quiet American citizen, whose name is enshrined in the hearts of his fellow countrymen.

The decorations will be the most elaborate that New York has ever seen or will probably see for generations to come. Every decorating establishment in the city is overwhelmed with orders for work for the occasion. It is estimated that no less than \$8,000,000 will be expended for decorations by day, illuminations by night and festivities in general. Some firms will expend as high as \$10,000 for decorating, while about every dwelling in all the boroughs will be draped in the national colors or some other ornamentation. The great demand for lighting has sent the price up 20 per cent, and has kept the mills down but unusually busy turning out the cloth. The makers of flags are running night and day in order to supply the demand.

Dewey day will be a veritable Fourth

## UNCLE SAM TO DEWEY—"HURRY UP; WE CAN'T WAIT!"

of July, if fireworks can make it so. The toy stores are clamoring for Dewey cannon, Dewey crackers and Dewey everything else. Young America intends to celebrate as never before; for George Dewey has no more ardent admirer than the small boy. The wholesale dealers in firecrackers now regret that they did not foresee this big demand for their goods and lay in a bigger supply, as they will apparently run short of the demand.

Another branch of industry that is making a harvest through the celebration are the lithographers and others who print and paint portraits of the admiral. Thousands and thousands of likenesses are being run off, enough, it would seem,

to give one to every man, woman and child in New York. The building of the arches, stands, etc., is giving work to thousands of carpenters and laborers, while the work of putting up the decorations will give employment to thousands more. The greatest crowd that New York has ever entertained will be there from all parts of the country to cheer the coffers of the hotel and business men. Altogether Dewey day will be a great boon for the metropolis.

As Dewey makes his triumphal entry into the city millions of tiny pieces of red, white and blue paper, known as confetti, will be showered upon him. This feature is new to Eastern cities, but the custom is followed at the Mardi Gras in New Orleans and the Venice carnival. Millions of these pieces are being turned out and Dewey's path bids fair to be carpeted with the beloved red, white and blue.

Harvey, Ocon, Chris Rechtenwald and John Hickey, Louisville, Ky., were seriously injured by an elevator dropping thirty feet.

## FIRE ON MORMONS.

Tennessee Mob Attacks Meeting Place and Kills a Young Woman.

Wednesday night six Mormon elders were conducting a meeting in a school house at Pine Bluff, Stewart County, Tenn., when the building was stormed by a mob of over 100 men. Eggs and rocks were thrown through the windows. Those present fled in a panic to save their lives. As bullets commenced to strike the building thick and fast, Elders Hiram Olson and H. C. Petty left the building to escape. Miss May Hardin, a popular young woman of the place, walked between the elders with a view of checking the work of the mob. While the trio passed down the road shots were fired from ambush. The woman was hit and almost instantly killed. Her brothers secured bloodhounds and placed them on the trail of the assassins. Barton Vinson, a prominent young farmer and superintendent of a Sunday school, was lying in wait for the elders and the girl's brothers became convinced he had fired the shot which killed their sister. Vinson wrote out a confession, stating he had killed the girl, but that it was an accident. Shortly after the confession the bloodhounds trailed to his home and were called off to prevent their tearing the man to pieces. Vinson turned, picked up a knife and cut his throat. His family and the officers' posse witnessed the suicide.

## FEVER AT NEW ORLEANS.

Yellow Jack Causes Southern Cities to Establish a Quarantine.

The Texas State health department Friday night received information of one death from yellow fever at New Orleans. State Health Officer Blunt at once ordered a rigid quarantine against New Orleans on passenger and freight business, to continue indefinitely, and all border stations were notified to refuse ad-

mission to any person or freight from that port.

Owing to one death by yellow fever in New Orleans and two other cases declared there, Mobile city authorities proclaimed a quarantine against persons, baggage and freight from New Orleans entering Mobile County. Quarantine is also proclaimed against Key West. Owing to the yellow fever at Key West, the Navy Department has decided to withdraw the force at the naval station there. The army quarantined will go to Fort McPherson, Ga.

The Indiana State Board of Health received a report of the death of a man in Knox County from yellow fever. The man had lately returned from Cuba. The case is pronounced certainly yellow fever, the patient having all the symptoms, even to turning yellow and having the black vomit. Doctors say there would be no danger whatever of the spread of yellow fever in this latitude if the disease were introduced.

## WORLD SHORT OF WHEAT.

Hungarian Ministry Says the Demand Will Exceed the Supply.

The Hungarian ministry of agriculture has issued its annual estimates of the world's harvest. It points to a considerable deficiency. While the stocks remaining from last year are much smaller than was generally supposed, the wheat yield is 110,000,000 hectoliters below last year's yield and about 34,000,000 short of the entire world's demand.

The estimated yield of rye is 5,000,000 less than that of last year, of barley 28,000,000 less and of oats 35,000,000 less. The total deficiency in all cereals is about 97,000,0

## ILLINOIS STATE NEWS

### OCCURRENCES DURING THE PAST WEEK

**Dig Through the Quicksands—Suicide at Normal—Murder at an Ice Cream Social—Springfield Mobster Captured—Work at Chester Prison Stopped.**

Reports from Devil's Blough, the quicksand country west of La Salle, where work on the Hennepin canal was stopped recently by quicksand discoveries in the route of the canal, say that the engineers are now hopeful of an easy solution of the difficulty. The quicksand beds were discovered a month ago, and during that time the work was stopped. It was found that the beds were forty feet deep, making work impossible. It was thought at that time that a long detour, in the route and a new appropriation and survey would be necessary, but a plan hit upon by the engineers—the making of ditches on each side of the water course—it is thought will relieve the pressure of the sand sufficiently to allow the continuance of work. In addition to the quicksand, there is a layer of sand, which poses the work. Much of the sand will have to be removed. The work is proving harder than the contractors anticipated and they are not progressing as rapidly as expected. The cost of the drainage ditches will be large, but when completed a detour from the old route of but a quarter of a mile will be necessary.

**Young Man Kills Himself.**  
Unrequited love is said to account for the suicide of William Chesley Thomas, who shot himself at Normal. He had been visiting for a week at the home of Dr. J. McCann. His home is at Ellis, Kan. Miss Bessie McCann, the daughter of Dr. McCann, had been on a visit to Kansas this summer, and upon her return home young Thomas came on for a visit. Whether or not there was an attachment between the young people, some breaking of which led to the young man to commit suicide, is a subject the family of Dr. McCann will not divulge. He had been out riding with the young woman only an hour or two before he ended his life.

**Law Hinges on a Coma.**  
Legal proceedings are about to be commenced by the city of Waukegan to compel County Treasurer Rote to return excessive commission alleged to be charged by him as county collector for handling tax money. Heretofore it has been customary for collectors to charge only 1 per cent commission, but Collector Rote has been charging 8 per cent, and has legal advice to support him. The point hinges upon the punctuation of the law, and has never been judicially passed upon. It is of importance to cities in the smaller counties of the State.

**Murder Story, Festivities.**  
Charles Gold, an uninvited guest at an ice cream supper at the house of Henry Howell, a farmer living fifteen miles south of Marion, slapped Mrs. Howell in the face when asked to leave, and when Mr. Howell interfered shot him dead. Amid the excitement the murderer fled. There has been ill feeling between the Howell and Gold families for some time, and it is charged the murderer went to the supper with the sole intention of starting a row.

**Chester Prison Hints Down.**  
All work at the Chester penitentiary was stopped the other day on account of the defective supply of water and the septic and foulness of the water, leaving about 700 convicts confined in the cells. The water in the Mississippi has fallen rapidly, leaving a sandbar in front of the prison half a mile long and about 600 feet wide. Barely enough water can be obtained for ordinary purposes. The asylum for the State's criminal insane depends upon the prison for its water supply.

**Wheat Broomcorn Crop.**  
It is now estimated that the new crop of broomcorn in the central Illinois belt will be but slightly above that of last year, while the quality is excellent. The price has started at \$80 a ton and the crop of Douglas County will be something like 5,000 tons, a slight increase over last year. In Coles and Moultrie the acreage is larger, but the number of tons will be smaller than in 1938.

**Stole Papers Worth \$10,000.**  
At Springfield, the undertaking rooms of Frank E. Williams were entered and the safe opened, and Government bonds and other valuable papers to the amount of \$10,000 taken. An elderly man named Frank Berchneider, who had been haunting the premises, was arrested in a box car at Lincoln with the stolen property on his person.

**Brief State Happenings.**  
Typhoid fever is raging in Litchfield.  
Mrs. Thomas Dixon, a resident of Rockford for over half a century, is dead, aged 95 years.  
Owen Ward, a Mexican veteran and wealthy farmer, died at his home in Shipman, aged 100 years. He was the oldest man in Macoupin County.

Chauncey O. Baker, dealer in agricultural implements in Ramsey, was adjudged a bankrupt by Judge Allen of the United States District Court.

One hundred striking molders at the plant of Fraser & Chalmers in Chicago went back to work at the union scale of \$2.75 and "time and a half" for overtime.

John B. Leon, a French sculptor and artist, was adjudged insane in Macoupin County Court and unless his relatives intervene will be committed to the Jacksonville asylum.

James McDonough, former village treasurer of Highwood, has been held to the grand jury in bonds of \$1,000 on a charge of embezzlement. He held the office for nine years up to this spring.

Gottlieb Reinhardt, a member of the La Salle County Board of Supervisors for many years and at St. Mary's hospital in La Salle.

Between 10,000 and 12,000 people surged through the streets of Bensenville on the occasion of the sixth annual free fish fry. Promptly at 12 o'clock the fish were served. As each one passed the servers he was given two slices of bread between which was a crisp piece of fish. Addresses were made by Mayor H. C. Kell and J. Joseph Cooke of Bensenville, and by Attorney James F. Kennedy of Chicago.

**Mr. Amie Lane Parker**, vice-president of the State Federation of Women's Clubs, is dead at Quincy. She was 62 years old.

Alfred M. Desdorf, for twenty years the confidential clerk of Jacob Myer & Bro. of Chicago, committed suicide by shooting himself in the head.

Mrs. Elizabeth Grier Hibben, formerly president of the Woman's Christian Temperance Union in Illinois, died at the home of her son in Princeton, N. J.

The New Deal mine, the best mining property in southern Wisconsin, has been sold to Chicago capitalists, represented by Attorney Chappell of Chicago, for \$85,000.

A dead man was found on the Rock Island track at Moline. Papers on his person indicate that he is E. B. Vaughn of Carroll, Iowa. He was badly cut up. There was a clear-cut hole in the lumbar region. It may be an accident. Some believe it is murder.

Charles Howard McCaughey, Jr., was arrested in Springfield by the police, charged with the killing of Miss Eliza Dyer at Huntington, Ind., on July 10, 1899. McCaughey is the son of a prominent farmer near Huntington.

At the home of O. Kennel, near Xuton, ten thrashers were poisoned, several of them very seriously. The poisoning is attributed to the eating of pressed chicken. Peculiar atmospheric conditions are supposed to have affected the food.

Daniel P. Cain, a mining engineer, died at his home in Springfield, as a result of pneumonia, contracted at Chikamauga while in camp there as a member of the Fifth Illinois Infantry volunteers. He was 21 years old and unmarried.

Rev. C. P. Cooley of Middleton has accepted the call tendered by the official board of the Cumberland Presbyterian Church at Virginia, and has been elected to the vacancy caused by the resignation of Rev. A. B. Welsh, who goes to the Drexel Park Cumberland Presbyterian Church of Chicago.

Miners employed by the Central Coal Company, at Cantrill, have returned to work. They went out two weeks before because the operators refused to discharge Peter Behner, pit boss, who was objectionable to the miners. The operators agreed to suspend Behner until the matter is investigated.

A south-bound freight on the Chicago and Eastern Illinois struck some box cars standing on the main track at Rossville, wrecked the engine and a number of cars. Engineer Tilton, Fireman Hollis and Air Brake Inspector Kellogg, who was on the engine, were crushed beyond recognition. The three men resided in Danville.

Willie Jones, an 8-year-old boy living at Deatur, found a half-pint bottle of whisky. He took it home, called in half a dozen boys and girls of his own age and they played having a big time. One little girl became unconscious and was sent into effect in 1895 in the present large appropriations have been cheerfully made for sustaining our public schools. During the ten years ending June 30, 1938, our people paid for new school houses built and purchased, for school sites and grounds and for repairs and improvements \$14,015,231.50. The one item of teachers' salaries during these ten years was \$47,731,930.34. The increase over the previous decade of nearly \$13,000,000. While the State pays annually \$1,000,000 for the support of common schools, there has been a voluntary local

LaGrange's business quarter narrowly escaped destruction by fire, and only the lack of wind, the efficiency of the fire department and the aid of the Berwyn firemen saved the scores of buildings which line Burlington avenue on the south for two blocks west of the depot. The flames, which were started by the explosion of a gasoline tank in the rear of William Fehrmann's grocery, were checked after a loss estimated at \$15,000 had been done. An entire block was swept away, the postoffice and village hall narrowly escaping destruction.

The bids for the Western State normal school were opened at Galesburg by the trustees in the presence of 300 citizens of the competing towns—Monmouth, Alledo, Macomb, Oquavka, Quincy, Rushville and La Harpe. Rushville's offer included a cash donation of \$120,000, a site, a training school building, public library and the construction of all aggregating \$300,000. Macomb and Alledo made \$70,000 cash bids, with public facilities that brought Macomb's bid up to \$141,500 and Alledo's to \$128,000. Monmouth's bid, including a cash offer of over \$50,000, aggregated \$75,000. Quincy's cash bid was \$30,000 and a site. The bids of Oquavka and La Harpe were light. The bidder prevails that the contest has narrowed down to Rushville and Macomb.

B. F. Secrist of Marion, Iowa, made an attempt at suicide on a Chicago, Burlington and Quincy passenger train. Secrist had been in Peoria on a fruitless search for Miss Laura B. Higgins, whom he loved, but who had written him from Peoria that their courtship was at an end. Miss Higgins' home is at Piqua, Ohio. Secrist went to Galesburg after the search, where he purchased a revolver, and boarded a train for Rock Island. When a few miles from the city he shot himself in the mouth. The bullet lodged at the base of the brain. Secrist is 38 years old.

Preparations for the dedication of the Northern Illinois Normal School at De Kalb Sept. 21, 22 and 23 are practically completed, and it will be an elaborate ceremony. Senator Cullom, Gov. Tanner, ex-Gov. Altgeld, Senator Berry, Speaker Sherman, Dr. Harper, Dr. Draper, Dr. Andrews and Superintendent Orville T. Bright are among the speakers. The Peoria band, a chorus of 100 voices, with Mrs. Maud Elzabek Gaudreux as soloist, will be among the musical features. Mrs. Jessie Ellwood Ray, daughter of Col. I. L. Ellwood, has been selected queen of the festival which is to accompany this demonstration. Every State official, members of every State board and over 10,000 school teachers have received personal invitations, and thousands of them have accepted.

Bennett Sitter, said to be an heir to a two-hundred share in the estate of Mrs. Sitter, valued at \$75,000,000, has been found in the almshouse at Hallsville. He was taken there last July from Veldun.

Peter Gorman, Thomas Meyers, Gustav Scholz and Roswell Cull, prisoners in the jail at Waukegan, succeeded in making an escape. Gorman, Meyers and Schnelder were being held on charges of burglary, and Cull was awaiting trial on a charge of arson. The jailer forgot to lock the cell in which the men were confined.

## UNVEILING OF THE SOLDIERS' MONUMENT AT WAUKEGAN.

### STATE SCHOOL DEDICATED.

Charles R. Rons' Oath Attire to Do Honor to the Great Event.

The dedication of the eastern Illinois State Normal School in Charleston on Tuesday was attended with great pomp and ceremony. The greatest parade ever known in that section of the State, headed by Gov. Tanner and staff and State officers and other dignitaries, marched from the public square to the normal building. Here the keys were presented to the Governor by little Frank Martin.

Gov. Tanner, though weak from illness and travel, responded in a speech, but before he concluded his voice became so weak that his son, J. Mack Tanner, finished the reading of his manuscript. The Governor in his speech said in part: "In providing for the establishment of this school and for its running expenses for the next two years there has been shown a broad and liberal spirit on the part of the members of the General Assembly. The disposition to provide liberal means for the support of public education has been a characteristic of our people."

"From the time our free school law went into effect in 1857 to the present large appropriations have been cheerfully made for sustaining our public schools. During the ten years ending June 30, 1938, our people paid for new school houses built and purchased, for school sites and grounds and for repairs and improvements \$14,015,231.50. The one item of teachers' salaries during these ten years was \$47,731,930.34. The increase over the previous decade of nearly \$13,000,000. While the State pays annually \$1,000,000 for the support of common schools, there has been a voluntary local

taxation, amounting in ten years to over \$10,000,000.

"The State must sustain the public school. Because freedom being one of the principles upon which this Government is based, the people must be educated in order that they may enjoy their freedom. Because by means of education alone are to be perpetuated the priceless blessings of the free institutions which we have inherited from the progress of this nation in commerce, manufactures and in industrial enterprises of all kinds, as well as in the arts and sciences, depends upon it."

"It is just and expedient to take \$11,000,000 of the taxpayers' money yearly for the single item of instruction in our public schools. It is certainly the part of wisdom and economy to establish normal schools by means of which that instruction may be made more thorough and effective."

"I most earnestly desire that the elements of the natural sciences, including agricultural chemistry and vegetable physiology, shall receive proper emphasis in every normal school in the State."

"I desire also to call attention to the provision in the act establishing this school which requires that instruction shall be given in the fundamental laws of the United States and of the State of Illinois in regard to the rights and duties of voters."

The day closed with fireworks and band concerts at the normal building and on the public square. A crowd of 25,000 people was present, Peoria being the home of Trustee L. P. Wolf, sending a special train of 600, including the famous Spangband and the Concordia and Liederkreis Singing societies. The day was perfect and not an accident of any kind occurred to mar it.

The founding of the eastern normal as well as that of the northern institution at De Kalb had its origin in December of 1894 at a State teachers' meeting in Springfield. There the idea of more State normal schools was discussed and each county superintendent was made a committee of one to work the matter up.

### WAUKEGAN'S BIG DAY.

Soldiers and Sailors' Monument Unveiled in Presence of Thousands.

The Lake County Soldiers and Sailors' monument at Waukegan was unveiled with impressive ceremonies Tuesday afternoon. As the flag which draped the tall shaft parted and fell away, revealing the figure of a color bearer holding the national colors, the guns on the United States steamer Michigan fired the national salute, the court house bell and the church bells rang, and 12,000 people cheered—not the monument itself, but the heroic deeds of the men it commemorated.

Waukegan was a mass of red, white and blue; everywhere floated the American flag; everywhere were twisted and twined the national colors. Not only were the public buildings and private residences decorated, but vehicles of all descriptions, down to the baby carriages, were alive with the Stars and Stripes.

The parade formed at 9:15 a. m. and marched through the principal streets to the court house square, where the dedicatory exercises were held. Chief Marshal O. A. Partridge and his staff led the first division, which was composed of the Quindici volunteer infantry, Col. Gardener commanding; a platoon of light battery D, Fifth United States artillery, Lieut. E. F. McLachlin commanding; a crew of sailors, and a company of marines, Ensign Sexton commanding.

The second division was commanded by Assistant Marshal H. S. Vall and was made up of carriages, in which were the speakers, the county officers, Capt. Perkins and staff of the United States steamship Michigan, the national officers of the Ladies of the G. A. R., those of the

Waukegan Woman's Relief Corps, the Lake County band, the fire and drum corps, the music of which, marched veteran soldiers and sailors of the civil war; Waukegan Post, No. 374, G. A. R., and Lake Forest Post, No. 673, G. A. R.

The third division was commanded by C. T. Heydecker, assistant marshal, and was made up of the Waukegan band, the Foresters drill team, Modern Woodmen, Catholic Order of Foresters, Fort Sheridan fire department, Knights of Macedonia, and the Federal Alliance.

The speeches at the grounds were all full of patriotic ardor. The exercises were opened with prayer by Chaplain J. G. K. McClure of Lake Forest College. The Apollo quartet, Messrs. Alden, Niebergall, Worstold and Talcott, sang "Comrades in Arms," and C. A. Partridge read the report of the executive committee. This was followed by an address by Charles Whitney, president of the Monument Association. Mr. Whitney being ill at home, the address was read by the chairman, Judge D. S. Jones. Mr. Whitney reviewed the war history of America since the falling of Sumter. In closing, he said: "We need now, as not before since 1890, that loyalty to government, patriotism, be the foremost thought in every mind." After the unveiling of the monument by Blanche Alexander, Bishop Samuel Fallows, who was introduced by the chairman, Judge D. S. Jones, as the "fighting parson," delivered a stirring dedicatory address.

The monument stands in the court house square facing the lake. It is constructed of Berea granite, and is surmounted by a life size bronze figure of a color bearer. It stands over fifty feet high. The base is twelve feet square, the die five feet square, and the shaft, which is nineteen feet high, is three feet square at the base.

William Antholz, who was employed as a section foreman on the Chicago and Northwestern Railway at Cary, was taken from the house of Mrs. Frank Hinesman by an indignant crowd of citizens, given a ducking under the town pump and a ride out of town on a rail, and warned never to return, under penalty of being tarred and feathered.

William Glatt has been arrested and will be tried for the recent murder of Lizzie Olson, near Pattysville. He shot and killed the woman, but escaped prosecution on account of supposed insanity.

## BUSINESS SITUATION.

Chicago Correspondence.

Commercial reports continue of an optimistic character. The demand for merchandise seems to increase with each passing week. Consumption in nearly every line of industry seems well ahead of production, notwithstanding the fact that production is increasing at a good rate. The mills of this country are crowded with orders. In the steel and iron trade commitments have been placed as far ahead as the middle of next year. The railroads are complaining of a scarcity of cars with which to handle the business which is being thrust upon them, while the outlook in the farming sections is good.

In the security markets there is no great public participation. The professional talent, however, is more in evidence than has been the case in a long time. Pools continue to bid up their specialties without acquiring any great amount of stock.

The week's speculative business in grain was to some extent curtailed by the approach of the time of delivery on contracts for September. At such times there is an unavoidable excess of purchases over requirements of the buyers, and the endeavor to find others willing to assume the surplus almost invariably results in a decline before those having the necessary facilities and capital can be persuaded to assume the risk of carrying the grain until it shall be wanted for consumption. That is the opportunity of the bear speculators, who, understanding the situation, aggravate it to the advantage of the ultimate buyers and themselves.

A decline of not quite 1 cent a bushel in wheat during the week was chiefly due to such a state of affairs, there having been nothing meantime to suggest that foreign or domestic requirements would be less or supplies greater than had previously been calculated. Corn gained a trifle in value during the week from further evidence of the moderate stocks of old corn in the country together with an unabated demand for both foreign and domestic consumption and some lessening of the previous prospect for the late-sown portion of the growing crop.

The speculative condition of the provision market was somewhat similar to that of wheat and prices suffered a moderate decline on that account. There were, however, other reasons for the decline in prices of hog products. The demand from abroad was much less urgent than it had been, and a few cases of yellow fever in the South created the usual alarm among those who see in it a possible stoppage of the Southern demand.

### FOE USES BIG GUNS.

Krupp Cannon Fired by Filipinos at Angeles.

The Filipino insurgents made an unsuccessful attempt early Saturday morning to drive Col. Smith's command out of Angeles with artillery, the first time they attempted to use this arm for months. They brought two Krupp guns from Iloilo and fired eight shells at the town at dawn. Only a few of the shells exploded and the aim of the gunners being bad no damage was done. Lieut. Kenley's guns of the First artillery were brought into action immediately and soon drove the enemy from their position.

The latest estimate places the number of Spanish monks now held as prisoners in the Philippine Islands at 300.

Argoila, the most impregnable stronghold of the bands which have been decimating plantations and levying tribute on the people of Negros, was taken Tuesday by the Sixth infantry under Lieut. Col. Byrne. The only means of reaching the town was up an almost perpendicular cliff covered with dense shrubbery and 600 feet high. The Americans accomplished this under fire, and an officer and several men were hit and rocks were rolled down upon them. The native strength was estimated at 400. Many of the insurgents were wounded and captured and twenty-one were killed. The American forces captured a quantity of stores and destroyed the fortifications.

### CAN'T CORNER BEEF.

That Is What the Secretary of Agriculture Tells Us.

Secretary of Agriculture Wilson does not believe the best slaughterhouse firms can corner beef. The cattle he said are owned by too many men. Farmers and ranchmen all over the country own cattle. In some instances they are in large herds, but the great majority of the cattle is owned by many men in small bunches.

Secretary Wilson believes there are legitimate reasons for an increase in the price of beef. They are the general prosperity and consequent increased demand; the fact that the supply of beef cattle in the country has not increased in proportion to the increase in the population, and, thirdly, that, through injudicious management, many of the great ranches in the West have been practically exhausted, forage grass having been actually eaten out by the roots.

### STABBED BY ASSASSINS.

Young Chicago Bookkeeper Killed in His Boarding House.

While he was lying ill in his boarding house, 8804, Fulton street, Chicago, Saturday night, Walter F. Koeller, 20 years old, a bookkeeper and a recent student of the Northern Illinois Normal School at Dixon, was attacked by two young men and stabbed to death. Richard Honeck, 22 years old, and Herman Mundhausen, both of Missouri, were arrested for the murder and made full confessions. Honeck admitted without reservation that he stabbed Koeller to death deliberately and in pursuance with a design formed years ago. Mundhausen, whose confession was first obtained by placing a detective in the cell with him in the guise of a hold-up man under arrest, told a story fully corroborative of Honeck's.

Inquiry at the patent office reveals the fact that inventive activity is greatest just now in processes for the manufacture of acetylene and other illuminating gases, the motive being to discover methods of producing light cheaper than under any of the existing processes. There is also great activity in the field of automotive devices. The great strides which have been made lately in automobiles of all descriptions seem to have wonderfully stimulated inventive genius in that field. In electricity the applications for patents are mainly for the perfection of machinery already in use and for the application of principles that are already well known to mechanical uses within somewhat restricted limitations. Little interest appears to be taken in storage batteries or in chemical electricity at this time. Compressed air is not, as many suppose, a new thing, and there is little new to report in that field. Inventors tried for a while to perfect various processes for compressing acetylene, but they have abandoned that idea on account of the prejudice against it.

An interesting story comes from Iddian Territory regarding a United States court there, judge, attorney, clerk, sheriff and marshal, with all necessary assistants and paraphernalia, which travels from place to place over the territory, holding forth an occasional demand. This novel institution is in the northern section of the territory, where the towns are few and far apart, and where it is cheaper for the court to go to the people than for the people to go to the court. Much money is saved the people each year by the movable outfit. There is a small house on wheels, resembling a moving wagon, in which the court sits, and in which the court records are kept. Here, also, in towns where there are no better accommodations, court is held and justice dispensed. With the court is a complete cooking outfit, presided over by a first-class culinary artist, who sees to it that the court does not want for food even if it does want for some of the other things which are common in civilized communities.

The Masonic ceremonies which are to take place at Alexandria and Mount Vernon on the one hundredth anniversary of the death of George Washington have practically been agreed upon. The affair will open with the assembling of the grand lodge of Virginia in Alexandria on the evening of Dec. 13. Early the next morning the grand lodge, accompanied by various local lodges, including the one to which Washington belonged, No. 4, at Fredericksburg, will proceed to Mount Vernon, where the funeral services of Dec. 18, 1799, will be duplicated as nearly as possible. Invitations to prominent Masons in all parts of the world are to be sent out, and it is believed that the event will be the most important the Masons in this country have been connected with for a number of years.

The Department of Agriculture has estimated the flood losses in Texas at seven and a half million dollars, and says that 8,100 farms were submerged, with a total acreage of 1,330,000. About half of this area was under cultivation at the time of the floods, 333,000 acres in cotton, 125,000 in corn, 11,000 acres in sugar corn, and the rest in smaller crops. About 90 per cent of the loss came through the destruction of crops, but damage to farm stock, etc., aggregated about \$550,000. The loss to the land by washing and gullying is estimated at \$350,000, but part of this is offset by the increased future productivity resulting from alluvial deposits. The loss represents about 74 per cent in the flood district, which has a population of 100,000, mostly negroes.

Postmaster Gordon of Chicago, who has to go into his private party to pay for the handsome furniture he purchased for use in his office and that of his assistant. Mr. Gordon purchased, among other things, a desk for which he paid \$180 and a chair which cost \$40. In addition to this some furniture for the assistant postmaster was purchased at a rather high rate. When the account was sent here for approval the officials held that the prices were entirely too high. The account was disallowed and Mr. Gordon will either have to pay for the furniture out of his own pocket or send it back to the manufacturers.

After the recent improvements on North Capitol street had been made it was discovered that some of the workmen had thoughtlessly made away with the historic corner stone set in place by George Washington at the time of the original survey to mark the northern boundary of the city. The stone cannot be found, but a committee of citizens has been appointed to prepare a suitable pillar or tablet to mark the spot where the stone stood for so many years.

A new-style domestic money order has been issued by the Postoffice Department. The new form is somewhat smaller than the one previously in use. Its dimensions are about those of the ordinary bank draft. The color of the order is blue, with a ground of very light blue. The tints and the intricate line-work, it is said, will render counterfeiting very difficult, but as an additional safeguard a horizontal watermark, composed of the initials U. S. M. O., in broad capital letters is wrought into the paper on which the new forms are printed.

State Department officials decline in the most emphatic manner to say what Consul Bedloe's actions were which offended the Chinese and caused his suspension, but say that the consul's integrity is in no way involved. Assistant Secretary Ordler said that the granting of an American charter to the Abbe, which is now being held by Gen. Admiral Watson, had nothing to do with the suspension of the consul, although in granting an American charter to that vessel, in the opinion of the officials here, Dr. Bedloe exceeded his authority.

Mrs. E. C. Sabin will receive a new stock of fall millinery on Saturday of this week and invites the ladies of Antioch and vicinity to call in and inspect the same. All the late fall styles will be on exhibition and the price will place them in the reach of all.

The village school opened Monday with Miss Lula Thayer in charge of the primary department, Mrs. W. F. Ziegler in the intermediate room, and Prof. Mauley in charge of the upper room.

Miss Grace V. Judd, of the Waukegan Gazette force, visited with Antioch relatives over Sunday and Monday, and made a short call at The News office to say hello to the editor and types of the force.

The great success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made it standard over the greater part of the civilized world. For sale by W. H. Emmons, Antioch, and Thomson's pharmacy, Grayslake.

W. S. Westlake and Eldora Horton and son, William Westlake Horton, started last week for a visit to Washington and will take in the grand army encampment at Philadelphia before returning home. They will also visit other points of interest in the east, and will probably not return for a couple of weeks.

James Pollock, of Millburn, was an Antioch visitor Wednesday. He informs us that he has purchased this season so far 170,000 pounds of wool. A pretty big lot for one man to handle. His tire-tightener is having remarkable good sales in nearly all parts of the country and is daily growing in favor.

The Amet Magniscope Company, of Waukegan, will give an exhibition of the workings of the Magniscope moving pictures at the Woodmen hall in this city, on Saturday evening, Sept. 9. Popular prices of admission will prevail, and all should see the working of this wonderful instrument.

The last of the Saturday night dances this season will be given at C. E. Herman's Bluff Lake resort on Saturday evening of this week, Sept. 9.

A medal will be given to the best waltzing couple, and a general good time is promised. Everybody made welcome and a cordial invitation extended to all.

On the occasion of their tenth wedding anniversary, Tuesday August 29, the guests of Selter's Summer Resort got up a very pleasant surprise party on Mr. and Mrs. Selter, a few invited guests being present. Numerous tokens of remembrance were presented to Mr. and Mrs. Selter, and all went merry as a marriage bell. Refreshments, games and dancing was indulged in by those present.

Yesterday afternoon George Wallace, a brother of Mrs. A. G. Watson, arrived from Racine, Wis., accompanied by Miss Cassie Spencer, Rev. Cheney, of the Baptist church of Racine, and Arthur and Roy Spencer, brothers of the to-be bride, for such the party proved to be. Mrs. Watson was completely surprised to think her brother would perpetrate such a joke, but making the best of it she made arrangements in short order and the ceremony was performed at 7:30. Mr. Wallace is an employee of the J. I. Case harvester works and a musician and composer of note, having published several vocal and instrumental pieces, while the bride is one of Racine's most charming and accomplished society ladies. Congratulations for a long life of happiness were freely offered by the impromptu company assembled.

## Flakes Weak Women Strong, And Sick Women Well.

It is made from a formula of Dr. R. V. Pierce, the celebrated specialist in diseases of women at Buffalo, N. Y. It is a strictly temperance medicine, containing neither alcohol, opium or other narcotic poison. Its protracted use does not create a craving for intoxicating stimulants or deadly narcotics. It cures irregularities, displacements, drains, ulcerations, inflammation, headache, backache and nervousness. It prepares the way for almost painless maternity, and insures robustness to the newborn. It cures women at home, and does away with obnoxious questioning and local examinations.

Some medicine dealers offer substitutes when you ask for Dr. Pierce's Favorite Prescription. They imitate this medicine in appearance as nearly as the law will allow, but they cannot imitate its record of thirty years of cure.

Mrs. Mattie Venghaus, of Toga, Hancock Co., Ill., writes: "I had been sick for seven years, not in bed, but just dragging myself around. At last I took three bottles of Dr. Pierce's Favorite Prescription and five of Golden Medical Discovery, and it is impossible to describe the good these medicines did me."

Neither the "Discovery" nor the "Favorite Prescription" contains any alcohol, opium or other narcotic.

**A FARM OR A FACTORY.**  
When you buy a farm or build a factory, it is natural to consider all conditions, and to locate to the very best advantage. In the northern portion of Wisconsin there lies a vast stretch of undeveloped or partially developed country, which is swelling the settler and manufacturer to turn it into productiveness and wealth.

Thousands of acres of rich lands covered with fine hardwood timber are open to the settler, who can obtain as much as he desires at very reasonable figures and upon easy terms. Improvements such as school houses and roads are being pushed, and ten years of progress will make an astonishing change.

The earth's rich deposits of iron ore, clay, kaolin and marl, together with hardwood timber, easily supply the wants of the manufacturer and offer a fine inducement for the location of a plant or factory.

The Wisconsin Railway Company, running through this rich timber and mineral belt, has opened it to the world by offering quick and cheap transit to the principal markets of the country.

If you are interested, complete descriptions, maps and pamphlets will be sent upon application to W. H. Killen, Land and Industrial Commissioner, Colby & Abbot Bldg., Milwaukee, Wis. Burton Johnson, G. F. A., Oak & Tonn G. P. A., Milwaukee, Wis.

**THE NEWS.**  
A REPUBLICAN NEWSPAPER.  
PUBLISHED WEEKLY BY  
J. J. Burke, Editor & Publisher.  
By Mail, One Dollar Per Year, in Advance.  
THE NEWS Guarantees a Larger Bonafide  
Circulation in Western Lake County, than  
Any Paper Published in The State.  
ANTIOCH, ILLINOIS.

**CLOSE OF VOLUME TWELVE.**  
With the present issue THE NEWS enters upon the thirteenth year of its publication, and, like a child who has passed the age of twelve years, it is old enough to perform and not rely wholly upon promises. With this thought in mind we point back to the record of the past as the best possible guarantee of its future policy and principles, ever mindful of the fact that a discriminating and usually just public will accord a measure of praise or censure according to the merits or demerits of the publication. That THE NEWS is not up to the ideal country newspaper we frankly admit, but in extinction of the same we are free to confess that few, if any, attain the ideal of perfection in any walk or vocation of life, and being but human, we must plead guilty to many of the human failings and shortcomings as a publisher. That THE NEWS is and always has been appreciated by the people of this locality is borne out by the fact that year after year it finds its way into the same homes and hearthstones and is eagerly looked for and welcomed there. That its merits as an advertising medium are known and appreciated is proven by the fact that the same men who first used its columns for advertising purposes are still found using its pages and deriving a benefit therefrom, otherwise they would have long ago discontinued to use space, if the same was shown to have been unprofitable. Our jobbing business has steadily increased and with competent workmen and an abundance of material we are able to handle anything in that line promptly and in a workmanlike manner. To the thousands of readers, advertisers and job patrons whose loyalty to home institutions and friendship and good will to its publisher, has made it possible for THE NEWS to be ranked among the foremost country papers in the state, in all advertising agencies and commercial reports, we return our most sincere thanks. Ever mindful of our duty to the nation, the state and the county, we shall bend our best energies to promote the well being of Antioch, the home of our nativity and scene of our active business career.  
Sincerely yours,  
THE PUBLISHER.

**Local Items Continued.**  
We are in receipt of the official program of the dedication of the Illinois State Normal School as published in the DeKalb Chronicle of September 5. The school will be dedicated with imposing ceremonies on Thursday, Friday and Saturday, September 21, 22 and 23. In addition to the official program the issue contains some very good half tone cuts of prominent individuals throughout the state and is a very creditable number.  
Messrs L. B. Grice and Simons & Sabin have rented the small sprinkler used at the race tracks at Russell last season and now keep the street well sprinkled in front of their respective hotels, and also in front of THE NEWS office. We trust others in the city will see the need and advantages of a sprinkler and urge upon the board of trustees the need and requirements of something to lay the dust in all of the streets in town. Preliminary, however, to a sprinkler is a good and abundant supply of water, and this matter should be thoroughly considered by the citizens of the town, as well as by the board of trustees, to the end that the most effective means for fire protection and water for sprinkling purposes may be adopted.

**A Word to Mothers.**  
Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many foreign lands. For sale by W. H. Emmons, Antioch, and Thomson's pharmacy, Grayslake.  
Job Printing, from a visiting card, to a full sheet poster, neatly and promptly done at THE NEWS office, Antioch, Ill.
